

# HSAJET® MiniKey

MK-HP

Coding & Marking made simple and fast.  
A compact printer with integrated printheads.  
Ideal for integration in packaging lines.

## MiniKey printer based upon HP TIJ 2.5 technology

The HSAJET® MiniKey is based upon reliable HP TIJ2.5 technology which offers consistent, high quality, fast printing. The printer's user-interface is so easy to use, that it requires very little or no training. The MiniKey is a very low-cost printer, yet powerful with all necessary functions available.

## An 'All-In-One' printer

The MiniKey is an 'out of the box' unit. Mount an ink-cartridge in the head, connect to power and print instantly by pushing a button. New print-messages are easily made - straight from the keyboard or loaded from USB key or via the LAN or RS232 connection. The basic unit comes with a 1/2" integrated printhead with built-in product sensor.

## Trouble free user interface

A 320x240 pixel graphical colour display showing intuitive icons ensures a clear understanding when choosing the functions from the keyboard.

## Choose from 1/2" - 2" printheight

The HSAJET® MiniKey is available with an integrated 1 or 2-pen printhead. If another printhead is required it can easily be plugged in with a cable. Having two printheads enables double-sided printing.

## No time between prints

While first print is in action next print is ready to go.

## Print at breakthrough speeds of up to 300 m/min in 300 x 150 dpi

- 50 WINDOWS TRUE TYPE FONTS
- BITMAPS
- COUNTERS
- FIXED TEXT
- REAL-TIME PRINTING
- SHIFT CODES
- DATE & TIME
- LINEAR BARCODES
- PRINTLOG
